FOR JUSTICE

Join the National Civil Justice Institute and the Brennan Center for Justice for a timely conversation on safeguarding judicial independence that expands on themes explored in our December, 2025 webinar. This program brings judges together to share practical, experience-based approaches for engaging with legislatures as they consider measures that affect the judicial system. Learn directly from your peers—Justice Beth Baker of the Montana Supreme Court and Judge David Gass of the Arizona Court of Appeals—about strategies for navigating relationships with legislatures while respecting the judicial role.

For state court judges only.
