

NCJI Fellows Webinar

Ethics in Complex Litigation

A Webinar for Attorneys

Thursday, September 10, 2:00-3:00 pm ET

Complex litigation presents ethical challenges that traditional professional responsibility rules do not fully address. This practical webinar explores how courts apply ethics principles in class actions and mass torts, with guidance drawn from Rule 23 case law and real-world experience.

Based on his forthcoming treatise, *Class Actions and Other Complex Litigation: Ethics* (LexisNexis 2026), faculty **Joshua Davis** (UC Law SF; Berger Montague) and **Christine Webber** (Cohen Milstein) will discuss key issues including conflicts of interest, retention agreements, settlement ethics, and the strategic use of ethics rules in complex litigation. Participants will gain practical guidance for identifying and navigating ethical issues unique to class and mass actions.

Ethics and Professionalism CLE credit pending.
